

Contents book 1

Introduction The World's Best Kept Secret

About the Author Jenny's Story

Acknowledgements To True Friends

The humble beginnings of NPAN and the need for information

About my Second Edition Revised

What compels, inspires and influences me as a woman, as a natural progesterone advocate, consultant and author

CHAPTER 1

Testimonials from women

CHAPTER 2

Attitudes Towards Progesterone

Why are so many people unwilling to address or come to terms with the hormonal problems afflicting women and men today?

CHAPTER 3

The Spiritual Side of Progesterone

The essence hormone of being a woman

CHAPTER 4

Natural Progesterone, and its relationship with other hormones

What is progesterone?

Diagram of the Hormone Cascade and production of steroid hormones in the body

Women who are most likely to suffer with progesterone deficiency

What is a progesterone receptor?

Why do women need progesterone?

If I am estrogen dominant, what are the benefits of using natural (to the body) progesterone?

What is estrogen dominance?

Symptoms of estrogen dominance

How come I have estrogen dominant symptoms and yet I still ovulate?

CHAPTER 5

Natural Progesterone and what to be aware of

What is a compounding pharmacist?

What is the difference between a compounding pharmacist and a herbalist?

How can I tell the difference between a Wild Yam cream and a

Natural Progesterone cream?

My naturopath tells me Wild Yam creams are safer than

Natural Progesterone because a chemical process required to make

Natural Progesterone could possibly be toxic to my body

Can my cream go off?

How do I know if the cream I am using is a reliable, high quality cream?

CHAPTER 6

Sourcing Natural Progesterone and The Law

Drug laws in various countries

USA drug law does not apply to progesterone usage

Why is Progesterone labelled an S4 drug even though it is natural?

Can I buy my cream overseas without a script?

Can I get a rebate on cream if it's bought on prescription?

Listing of various natural progesterone creams that are mass-produced and are being distributed nationally and internationally (detailed list chapter 22, page 405)

CHAPTER 7

Approaching Your Doctor

The patterns I have observed in the prescribing habits of Doctors

How do I approach my doctor?

What happens if I am having trouble getting a script from my doctor?

Possible reasons why Doctors have become resistant and cautious about writing scripts

Why are Doctors so reluctant to write scripts for natural progesterone?

This letter received from a lady recently is just one of the reasons demonstrating the existing problems women are facing with their Doctors.

Winning over a working relationship with your Doctor

Suggested guidelines on how you may wish to approach your Doctor

How will the special test and my doctor's examination benefit me

if I want to use progesterone?
I feel guilty using progesterone behind my doctor's back because I know he does not approve of natural progesterone. Is it harmful to withhold this information, being a natural product?
My doctor will not prescribe progesterone on the grounds that I am testing positive to estrogen receptors and progesterone receptors
How does the doctor know what progesterone dosage to put me on, and when to adjust it?
How do I know whether to buy a 1.6%, 3.2% or 10% cream?
Which is the one usually recommended?
Now that I have my prescription how do I process it?

CHAPTER 8

Measuring Progesterone with Saliva Assays versus Blood Serum

The Late Dr. John R. Lee, M.D. Medical Letter – Saliva Vs Serum or Plasma test for Progesterone
What a blood test measures
How progesterone travels in blood
Absorption of transdermal progesterone
How to use Saliva Hormone Assay to determine progesterone dosage
Achieving Balance is the Key
Progesterone levels and PMS
Progesterone and Endometriosis
Progesterone and Estrogen Receptors
References
Saliva Hormone Testing as Used by Researchers
Good Evidence Concerning the Absorption of Steroids Through Human Skin
The Evidence of Red Blood Cell Transport of Progesterone
Direct Comparison of Plasma and Saliva Levels After Topical Progesterone Application
Why not do a blood test to check progesterone rather than a saliva test?
Conversion formula for Saliva tables provided by Garth Birdsey, Clinical Pharmacist

CHAPTER 9

Cream Usage and Guidelines

Where does NPAN stand on progesterone dosage
Stages of Natural Progesterone's Action In The Body
When can I expect to see results from using the cream?
First 10 days - Estrogen Dominance Wake Up Crisis
1-8 Weeks - Reaching Saturation
4 months - Stabilising & Settling
7-12 months - Estrogen Dominance Wakeup Revisited
18 months - Fine Tuning
Guidelines to cream application
Why do women expect progesterone to fix all their problems?
I've started taking progesterone and I feel awful. I want to stop using the cream. Should I?
What happens if I am allergic to the cream, e.g. rash?
When is the best time to apply the cream and when do I start the cream?
What do you do now that you have your cream
Where do I rub the cream?
Some tips myself and women have found useful in cream application
What is the right dose for me?
When do I have a break from my cream?
Barometers that may indicate progesterone overuse and the need to adjust dosage
When should I use less progesterone?
How would I know if I have to use more progesterone?
What can cause progesterone shortage
Are there any side effects using natural progesterone
I have been on progesterone and it is not working. Why would this be?
I feel nauseous on progesterone, why is this?
Why is the liver so important in hormone balancing?
Can I treat hormonal imbalance with nutritional and diet plan strategies alone?
There are three scenarios to consider
If using your cream without nutrition or supplementation
If using nutrition and diet without using progesterone
Women using progesterone with nutritional supplementation

CHAPTER 10

Contra indications with Progesterone and the most asked questions

with other medications and treatment

What drugs are not compatible with progesterone supplementation (or contra-indicated)?

Caution / consideration when using medications in conjunction with progesterone

Most asked questions in relation to other medical treatments

Will progesterone increase my blood pressure and interfere with my blood pressure tablets?

Can I take progesterone while I'm on my anti-depressant drugs?

Can I take progesterone while I'm on thyroid medication?

Can I take Tamoxifen and progesterone at the same time?

Can I take progesterone through chemotherapy treatment?

Can I take my bone building drugs such as Fosamax and

Raloxifene (Evista) with progesterone

CHAPTER 11

What to be aware of with your Natural Progesterone and the different deliverance systems

Oral

Creams Used Topically

Creams Used Vaginally/Intravaginally

Common guidelines to adhere to for vaginal application

Indications when not to use cream vaginally

In summary, advantages of intravaginal application

Lozenges / Troches

Pessaries / Vaginal Suppositories / Vaginal Gel

CHAPTER 12

Recommended Cream Dosage for Specific Problems

Uterine Fibroids / Heavy bleeding

Endometriosis

Migraines / PMS

Cervical dysplasia

Adrenal Gland Exhaustion (Adrenal Exhaustion)

Polycystic Ovarian Syndrome

Gentle Summary reminder in PCOS treatment using progesterone

Nursing Mothers - Postnatal depression

Fibrocystic breasts

Fertility

Liver function

Osteoporosis

Hot Flushes

CHAPTER 13

Golden Rules for Natural Progesterone Cream

Know golden rules and general summary of your natural progesterone cream

Be Familiar with your Natural Progesterone Cream

Introducing natural progesterone back into your body

Correct application of cream

Cyclic Use

Capturing Your Data

Be active in your choices to maximise progesterone's performance

Progesterone versus Wild Yam cream usage

NPAN's Formula for Hormone Harmony as formulated by Jenny Birdsey

CHAPTER 14

Questions and Comments in Relation to Specific

Premenstrual Syndrome/Tension (PMS/PMT)

What is PMS?

PMS controversy

How is progesterone used to treat PMS?

What aggravates PMS, and why are some months worse?

Will progesterone help my heavy menstrual bleeding, my PMS and breast swelling and menstrual cramps?

Can I use progesterone to control my PMS mood swings?

Why don't progestogens work for the treatment of PMS?

Does progestogen therapy do the same as progesterone therapy?

I am taking a progestogen to control premenstrual symptoms such as irritability and depression. Is it the same thing?

Is my combination patch 'natural'? My doctor has prescribed it to treat PMS.

Polycystic Ovary Syndrome (PCOS)

What is Polycystic Ovary Syndrome (PCOS)?

How do I know if I have PCOS?

What causes PCOS, and how is progesterone used in the treatment of this disease?

What are the signs and tests that will confirm I have PCOS?

What is the guidelines dosage?
How do I know when to reduce my dose?
What may I expect to experience while using progesterone if I have PCOS?
What else can I do to improve PCOS symptoms?

Migraines / Headaches

I have always suffered migraine headaches, nausea and vomiting during the time of my period. Will progesterone help this?
Will taking estrogen with progesterone affect my headaches?
I suffer vaginal atrophy and dryness, and use estriol cream, Will this create hormonal headaches?
I am getting very bad headaches/migraines on progesterone cream, I thought progesterone was meant to stop all this.
How can I use natural progesterone to control my headaches/migraines?
I have been free of headaches for over twelve months on progesterone, but now they are suddenly returning again. Why would this be?
I'm having migraines after my period, not before. What does this mean?
I've been on progesterone for 4-7 months and have not experienced any relief from headaches.

Fibromyalgia and/or Chronic Fatigue Syndrome

What is Fibromyalgia (FMS) and/or Chronic Fatigue Syndrome (CFS)?
What causes FMS?
What are the signs and symptoms of FMS?
Can natural progesterone help ease, if not cure, fibromyalgia?

Fertility / Infertility / Contraception / Postnatal Depression

Can I use progesterone for contraception?
Can I use progesterone for infertility?
If I'm not ovulating and not producing progesterone every month, how come I'm getting a period?
Can I use progesterone for Postnatal Depression?

Menopause

What are the symptoms of menopause, and what causes them?
How can I stop hot flushes?
What is the alternative treatment to menopausal symptoms other than conventional estrogen replacement therapy or HRT?
What's the reason behind estrogen replacement therapy at menopause?
Is there a test to determine menopause?
What causes menopause? Will progesterone interfere with this?
When will I go through menopause?
My doctor says I've had premature menopause. I'm a little bit confused.
What is meant by peri-menopause?
What is meant by pre-menopause?
How long does menopause last?
Will my periods return if I have entered menopause and my doctor has prescribed estrogen in the form of HRT?
Can natural progesterone replace synthetic progestogens at menopause if I'm on HRT?
When is menopause not menopause?
Are the ovaries beneficial or have any purpose after menopause?
Where do you get estrogen from after menopause? And is it necessary to take estrogen therapy?
Why have I gone through menopause early?
Why is it I'm becoming more masculine since entering menopause?
I thought once my periods stopped and I was menopausal that all my symptoms would stop. Why haven't they?
I'm entering menopause and my periods are erratic. What days would I apply cream? (Refer to bleeding concerns & menstrual cycles)
What happens if I do not ovulate or I do not have ovaries?
Vaginal Dryness (Refer to question I'm suffering bladder problems. Is this connected with my hysterectomy? P174)
Bladder Problems (Stress Incontinence)
Urinary Problems

Hysterectomy

What is a hysterectomy?
How is a hysterectomy performed?
What are the types of hysterectomy?
What are the real facts about hysterectomy?
I have had a hysterectomy, since then I've noticed that my vaginal secretions are dry and my vagina lips have shrunk, along with a reduced sexual desire and inability to have deep, satisfying orgasms. What can I do?
I'm suffering bladder problems. Is this connected with my hysterectomy?

Bleeding Concerns & Menstrual Cycles

My cycles have changed since being on progesterone, and I do not know where I should be taking my breaks.

I've started using progesterone after using conventional HRT for some time. When I started natural progesterone I wasn't getting any hot flushes and my periods were regulated on HRT but now they have returned with a vengeance. Why?

I have just started my progesterone cream and I'm have breakthrough bleeding. What does that mean?

My periods are all over the place, light and heavy. I don't know when to start using the cream.

Will progesterone throw my hormone functions out of synchronisation?

I'm reluctant to go on progesterone because I'm young and still have regular cycles.

What are some of the causes for heavy bleeding?

Should I take my break every time I get a period?

What happens if my periods stop or are very late?

Will progesterone help me with heavy bleeding?

Why would I need progesterone if I am having a period every month?

Cancer Concerns

Will progesterone cause and/or promote cancer? Will my ovaries return to normal after chemotherapy?

Can I get ovarian cancer without ovaries?

Will my ovaries return to normal after chemotherapy?

Breast Concerns

I have lumpy (fibrocystic) breasts. Will progesterone help?

Osteoporosis

I have been diagnosed with osteoporosis. What does that mean?

Risk Factors of Osteoporosis

Hormonal Imbalance

Body Type/Build

Antacids

Stress

Diets too high in fibre

Tea and coffee consumption

Family history, diet and lifestyle

Cortisone

Other contributing factors

What is a Bone Mineral Density (BMD) test?

Should I take progesterone if my bone mineral density test shows signs of osteoporosis but I'm not showing signs of estrogen dominance?

I've got a good bone mineral density. Should I take progesterone?

My doctor wants me to take Fosamax but I don't want to. I want to improve my bones naturally. What is the best plan of attack?

I've been on progesterone now for 2 years and my bone mineral density is worse. Help!

I have been on progesterone for a couple of years and my bone density has not improved. Why?

My doctor insists that I take HRT to prevent further osteoporosis.

Is this not the same as progesterone?

Can I take my bone building drugs such as Fosamax and Raloxifine (Evista) with progesterone?

What are some of the substances and factors that disrupt bone formation?

Will the Contraceptive Pill interfere with my bones?

Can I take The Pill if I have osteoporosis?

What are some of the things I can do to improve my osteoporosis?

Are there other ways of increasing my daily intake of calcium without using dairy products?

Sources of Calcium

Ageing Concerns

Should my mother or my grandmother use Natural Progesterone?

Thrush, Cystitis, Vaginal & Bladder Concerns

I have Thrush. What does this mean? Will progesterone help this problem?

I have read that progesterone actually makes it worse.

Skin & Hair

Will progesterone make my hair fall out? I was on the Pill once and this is what happened to me.

Will my varicose veins worsen or my broken blood vessels on my face get worse with the use of progesterone?

Usage of progesterone for skin care
About Acne Rosacea
Dry gritty eyes

Weight Issues

Will progesterone put on weight? I have been on other forms of hormone replacement therapy in the past and have experienced weight gain
Summary of factors that need to be taken into consideration with weight gain
My association with Dr Sandra Cabot and WHAS
How do I know what nutritional supplementation, diet plan or eating plan I should follow when I am on progesterone?
I have been on a diet and cannot lose weight. Why would this be?

Stress

What happens when the body experiences stress?
Why does stress upset my hormonal imbalance?
Symptoms of Adrenal Gland Exhaustion

Thyroid Concerns

Will progesterone help my thyroid?

Fibroids

What are fibroids?
What causes fibroids?
Who gets fibroids?
Heavy bleeding
Will my fibroids turn into cancer?
What are the symptoms?
Types of fibroids
Will progesterone help with fibroids?

Endometriosis

What is endometriosis?
What causes endometriosis?
Factors increasing the risk of endometriosis
Factors reducing the risk of endometriosis
What are the symptoms of endometriosis?
Why is progesterone effective in treating endometriosis?
Chronic Endometriosis
Profile of an endometriosis woman by Jenny Birdsey
Can you be suffering from endometriosis and fibroids at the same time?
Will progesterone cure endometriosis?
Will a hysterectomy cure endometriosis?

Tubal Ligation

What is a tubal ligation?
Will a tubal ligation affect my hormones?
How can the problems after tubal ligation be treated? Can progesterone help?
If I reverse my tubal ligation, will my symptoms go away?
Does tubal ligation work for any particular woman?

Memory Loss / Mental Faculty

I'm having memory loss and I can't concentrate, focus and recall.
Will progesterone help?

Musculoskeletal

Will progesterone help with my arthritic problems?

CHAPTER 15

Charting Recommendations & Guidelines for Journal Keeping

Is it important to keep a chart?
Subtle changes
Share your charts with your doctor

Which Chart Suits You?

Monthly Score Sheet to Determine Progress / Effectiveness of Progesterone Usage
Suggested dose guidelines for Monthly Score Sheet
How to interpret your score and use it to Guide your progesterone dosage requirements
The Importance of this chart- Estrogen dominance/Progesterone deficient
Monthly score sheet chart to determine progress
Sample charts
Health Observation Calendar for Monitoring Hormone Balance
Calendar-style Notation of Symptoms
Quick Tick Chart - Spreadsheet
How to approach your charting

Addressing Questions to Assess your progress

Gynecological Symptoms
Menstrual Cycles
Skin & Hair & Ears

Breasts
Ongoing Chronic conditions, ears, nose and throat (including Auto Immune)
Pain Disorders
Reproductive
PMS
Muscular - Skeletal
Other Pain
Pain considerations
Bladder
Gastrointestinal
Sleep Patterns
Sex/Libido
Metabolic
Cardio Vascular
Fertility
Muscular, Skeletal & Nerves
Vision
Concentration Memory Performance
Headaches
Emotional WellBeing
A time for reflection
Taking control

CHAPTER 16

Hormone Replacement Therapy (HRT) and Natural Hormone Replacement Therapy (NHRT)

Is natural Hormone Replacement Therapy (NHRT) addictive and will I be able to come off it?
Is HRT the same as NHRT?
Is NHRT safer than HRT?
Possible risks and side effects of The Pill and HRT
More serious effects of The Pill and HRT
Possible risks and side effects of natural progesterone
Types of HRT regimes that might be offered by your doctor
How is conventional HRT usually taken?
How is NHRT usually taken?
Alternative therapies, changing tactics and trends
Women who are considered low risk and possibly do not require hormone replacement therapy are women that:
Regarding hormone replacement therapy, I am confused about which form of hormone replacement therapy I should use

CHAPTER 17

Estrogen, Phytoestrogens and Xenoestrogens

What is estrogen?
What are estrogen receptors?
My doctor says I need estrogen and yet I've read there are different forms of estrogen, I am confused
Do I need estrogen if I'm still having regular periods?
Do I need estrogen if I'm not having a period?
What is amenorrhea - What are the causes
What is the safest form of estrogen to use if I have to use an estrogen?
I want to use Natural Progesterone cream but my doctor wants me to take a tablet. I'm totally confused
My doctor wants me to stay on estrogen for my bones and heart but I get headaches and other problems. I don't know what to do
Suggested guidelines when coming off estrogen replacement therapy
I have been on estrogen for hot flushes but would like to use progesterone
Will I need to stay on my estrogen?
I qualify for some estrogen because I am still having hot flushes and vaginal dryness but I'm not sure when I am meant to be taking it
How can I reduce my estrogen dominance naturally?
Guidelines of an estrogen reduction program
What are phytoestrogens?
Other benefits of phytoestrogens
Why do estrogen dominant symptoms return 3-4 months later on phytoestrogens?
Supplement with a PREMIUM phytoestrogen formulation
What is the difference between phyto-hormones (phyto-estrogens) and xenohormones (xenoestrogens/xenotoxins)?
How do I reduce my exposure to xenoestrogens and xenohormones in my environment?
What are some of the foods containing natural estrogen?
Who would benefit most from estrogenic foods?

CHAPTER 18

Men & Teenagers: Progesterone Usage

Men and Progesterone Usage
Why would men need to take progesterone?
Will progesterone help men with osteoporosis?
Suggested application sites for men
Teenagers and Progesterone Usage
Strategies to help correct hormone imbalance in teenagers
What are the circumstances that would require hormone replacement therapy in teenagers?
The question is often asked "What are the circumstances that would require natural hormone replacement therapy in teenagers?"

CHAPTER 19

About NPAN and Jenny's Work

History and Activity of My Organisation
NPAN is Collectively Every Woman

CHAPTER 20

Political work instigated and conducted by NPAN, Jenny Birdsey

Political activity - and Jenny's Lobby work
Politicians Make Women Sick
Grievance of inaccessibility to W.A's manufactured cream
Supply :Why can't I get it here?

CHAPTER 21

Resources

The Late Dr. John R. Lee, M.D.
Progesterone Research Institute
Saliva Hormone Testing
Listing of fertility detector devices
Cleansing & Detoxification
Weight Control
Xenohormones
Other invaluable websites
Sourcing and stockists of Jenny's books
Recommended reading

CHAPTER 22

Sourcing Natural Progesterone cream

Health Care Providers and Australian Compounding Pharmacists that may assist you in sourcing Natural Progesterone and prescriptions
Australian Compounding Pharmacies
International Cream and Contacts
Other USA and International Contacts

CHAPTER 23

Progesterone Drug Information Sheet

Medical References
Progesterone Absorption
 Topical
 Vaginal
General Articles on Progesterone Use
Phytoestrogen Therapy
Progesterone and the Breast
Hormone Replacement Therapy and the Heart
Long term combined oestrogen-progestin replacement
